Fantec QB-35U31R

4× 3,5" or 2,5"(optional with QB-Bracket 25) HDD or SSD RAID-Case
USB 3.1 Gen. 2 with USB-Hub

Save your data on the Fantec QB-35U31R with room for four SATA-hard disks or SATA-SSDs combined in two independent RAID-Systems. The QB-35U31R has a USB 3.1 Gen. 2 interface which allows for a PC-connection with a maximum speed of 10 Gbit/s. The USB-hub on the side offers two different USB-connections: one Type A and one Type C. With the optional supply QB-Bracket 25 (Art.-Nr. 1993) SSDs can be used in the QB-35U31R as well.

The QB-35U31R allows for the usage of two RAID-sets in combination by choosing between three different RAID-modes and (ex.: RAID 0 and RAID 1) or using all four drives independently.

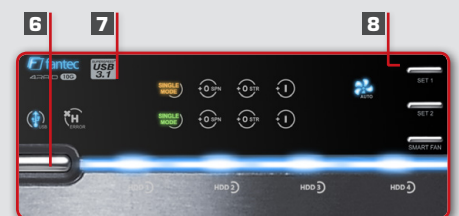

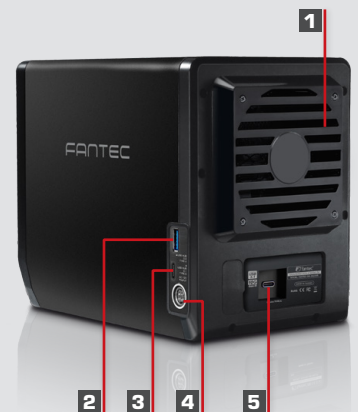

The Fantec QB-35U31R offers these RAID-modes:

RAID 0 STR (Striping) - allows for increased performance

RAID 0 SPN (Spanning) - combines different hard drives to one virtual drive

RAID 1 (Mirroring) - allows for high data security by writing data redundantly

SINGLE - the hard drives are used independently
