

FANTEC SRC-MINI SAS TO MINI SAS CABLE

SFF8087 to SFF8087 cable

This high quality data cable is specially designed for use together with FANTEC server enclosures of the SRC series. It connects the SFF8087 connector of the backplane of a SRC server enclosure with a Mini SAS SFF8087 connector of your server - usually on a controller card. Up to four hard disks are addressed per SFF8087 connection. The cable is designed for data transfer rates of 6Gbits/s per hard disk.
