

FANTEC SRC-MINI SAS TO 4X SATA CABLE

mini SAS SFF8087 to 4x SATA cable

This high-quality data cable is specially designed for usage with FANTEC server housings from the SRC series. It connects the mini SAS SFF8087 connector on the backplane of an SRC server housing with four SATA connectors on your server board or the four connectors on a SATA controller card in your server. It is designed for data transfer rates of 6Gbits/s per connection.
